Size: 114.2''\*6.7''\*0.94''

**Indoor WPC Cladding**

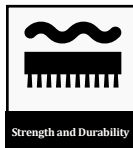

Size: 114.2''\*8.62''\*1.02''

**Outdoor WPC Cladding**

**WPC (Wood Plastic Composite)** is extruded thermoplastic composite made of polyethylene and natural wood fiber.

Wood plastic composite is more environmentally friendly and requires less maintenance than the alternatives of solid wood.

WPC is resistant to cracking and splitting, it is a material that can be molded with or without simulated wood grain details.
